

All Canada Awaiting Momentous Decision Of Parliament In Session At Ottawa Today

WORLD AWAITING COUNTER-ATTACK BY POLISH FORCES

German Successes At Corridor Not Unexpected—Retreat For Strategic Reasons

By R. F. Wynne

The first results of the cunningly conceived "counter-attack" against the entirely inactive Polish army can scarcely have satisfied its Nazi propagandists. The Polish nation is lying up to the highest traditions of its heroic past. The Polish army will prove unconquerable. True various Polish forces have had to give way before heavy concentrations of the enemy, but some of these retreats may have been induced by other than enemy pressure. The giving up of ground in some localities was obviously done for strategic reasons. Field Marshal Smigley-Rydz has been preparing for this possibility, and is awaiting his opportunity.

Up to the present time the Germans have been cashing in on the advantages which the initiative gave them.

The German successes at the corridor were not unexpected. It was impossible for the Polish command to defend all vital points behind its wide-fronted frontiers. It was inevitable that the Polish forces in this enemy-flanked funnel would be eventually bottled up. Though this Polish reverse will raise the German morale, it will be regarded at its right value by the Polish people, and will not unduly depress them.

The Polish armies operating in the southern area of hostilities, and on the west of Warsaw, are stubbornly contesting every inch of ground. The enemy are paying dearly for each small advance they make.

In a war of movement, such as obtains in Poland today, a major counter-attack will be the obvious answer to the German advance. Marshal Smigley-Rydz is a cool-headed, calculating strategist who is patiently awaiting his opportunity. When the right moment arrives he will strike a smashing blow with the large mobile forces he is holding in reserve. There are sound reasons for believing that such a counter-stroke will prove successful. The Polish cavalry has already proved its worth. Large forces of cavalry, acting in conjunction with swift-moving tanks, will carry out enveloping movements against the enemy's flanks. A German reverse at this juncture would have far-reaching political repercussions. From a military standpoint it would prove of priceless value to the Polish commander. The time gained would permit him to strengthen the stretch

Fruit Industry Heads Probe Probable Results Of Conflict

The outbreak of war at the beginning of the British Columbia apple season has created a very disturbing situation and at the present time it is most difficult for any one to express an opinion as to what the final outcome will be.

This was the comment of E. J. Chambers, President and General Manager of the Associated Growers, when queried by The Vernon News about the export situation in the fruit trade, with relation to the war.

It is expected that Great Britain will control imports by a Food Board to be set up. Whether they will consider that there are more important commodities than apples to be arranged for, will naturally not be determined for some time.

Buyers who have purchased supplies from the Associated Growers, apparently feel that imports of apples will be arranged for, as very few cancellations have been received. Mr. Chambers remarked when interviewed.

On the other hand all British Columbia apple sales are made on the basis of letter of credit established against shipping documents so that the buyer is in the position that if the apples cannot be shipped, he has no liability.

While there have been a number of ships cancelled to date, it has been possible to arrange for accommodation on other vessels, but up to the present time the volume to be moved is very small in comparison to what will be available within the next two or three months.

"It would be my opinion that after things become a little more organized, possibly in a month or six weeks, there will be arrangements made for the gradual shipment of the British Columbia apple crop intended for export as fruit is now looked upon as pretty much a necessity," Mr. Chambers states.

"It is likely also that shipping controlled by foreign countries will endeavor to carry on business as usual and that the disturbance of present facilities will be more confined to British owned tonnage."

The British Government has established an insurance pool and war coverage can be obtained at reasonable rates.

The drastic drop in sterling is disturbing and will seriously affect consigned shipments. However, it is altogether likely that British importers have pretty well protected themselves on their purchases at the time the sale was consummated.

The present premium on American

GOOD RECEPTION FOR VALLEY FRUIT

Up to date there has been "no effect at all" of the war on the fruit situation, according to A. K. Loyd, chairman of B. C. Tree Fruits Limited.

Compliments have been received from the prairies relative to the quality of the Okanagan product now being received, following the shipments of Tree Fruits to standardize the pack throughout the deal and the publicity given to the need for better maturity in earlier apples. One wholesaler wrote from Edmonton as follows:

"I wish to commend you upon the quality of fruit contained in your car received this morning. The exception every box appeared in first-class condition, the peaches particularly being well colored, good size and a tight pack. We had no trouble in disposing of the entire car this morning."

COMMENDED QUALITY

DAVID McNAIR, Tree Fruits sales manager, stated that in a telephone conversation with Calgary on Tuesday, he was commended on the splendid quality of B. C. Wealthies. It is believed that the quality of the Wealthies arriving on the prairies today is due to the fact that they were allowed to remain on the trees, in accordance with the requests of Tree Fruits, until they were in a proper condition to pick and ship to market.

The same compliments received the same treatment this year and a reader sale of this fruit has been

Police Arrest Nine Suspects

The past few days have been marked by considerable activity in the city and district of German birth or affiliation have been the object of extensive police enquiries. It is understood.

Nine of these persons were taken into custody but the authorities here have been unable to make an official statement with regard to the extent or nature of their activities. It is, however, known that these men were taken to Vancouver on Wednesday night by officers of the Royal Canadian Mounted Police. Despite the fact that they were handcuffed the men apprehended were far from depressed in outward appearance at least.

Additional men of both the R. C. M. P. and the B. C. Police have been in this city for several days.

Heart Of Empire Is Ready

Rushing preparations for air attacks that have so far not materialized, Great Britain has completed her defences. Conical steel bomb shelters have been delivered at Buckingham Palace, at Windsor Castle, elaborate underground shelters are in readiness for the royal family. Elsewhere historic treasures are being put in safe places. Above, workmen are seen piling sand bags around the Mansion House, the seat of the Lord Mayor in London.

Grim War Tidings Commented Upon In Churches Of Vernon

It was in the early morning hours, last Sunday, that the grim tidings of war became known.

In the churches of Vernon, as elsewhere throughout the world, the momentous development was the subject of comment by ministers addressing their congregations.

Some of the remarks, from Vernon pulpits, are summarized below:

BISHOP A. H. SOVEREIGN

"Christianity gives the human soul power to face the great crises of life," declared the Rt. Rev. Arthur H. Sovereign, Bishop of Athabasca, who preached in All Saints Anglican Church here on Sunday morning, shortly after news of war had swept the world.

"We today stand face to face with a great crisis. Let us face it in humility and humility, in sure and certain trust in the Eternal God.

"Lord God of Hosts, be with us, lest we forget, lest we forget."

"Let us stand calm and strong and firm—firm in the belief in the justice of our cause. Seldom, if ever, has the way been so clearly blazed.

"It is not just a clash of armies; it is the clash of ideas. We must decide whether the human race is to revert to the law of the jungle, the law of the sharp tooth and the bloody claw, or to be ruled by the eternal principles of truth and right, of love and justice.

"It is a clash between the principle that might is right, and the principle that God is right. I believe that God has made of our blood all nations to dwell on this face of this earth, that mankind is a brotherhood under the fatherhood of God, that small nations have the right to exist even if they are small, that freedom and liberty must prevail, and that without these precious and

RED CROSS GROUP HERE IS PLANNED

Meeting To Be Held In Board Of Trade Room Here Next Wednesday

Formation of a Red Cross Society for Vernon and district will be achieved at a meeting of those interested to be held in the Board of Trade room, City Hall, next Wednesday evening, September 13.

Preliminary steps were taken Wednesday afternoon at a meeting of Red Cross members held at the home of Mrs. C. Hamilton Watts. Mrs. Watts obtained a list of such members from the provincial headquarters and ten of them were in attendance. His Worship, Mayor Bowman, was elected chairman of the meeting, and E. G. Sherwood, secretary.

It was decided to make application for the charter and the necessary ten signatures were secured. It is anticipated the charter will reach Vernon before the meeting on Wednesday. A Nominating Committee was chosen composed of Mrs. C. Hamilton Watts, E. G. Sherwood and W. S. Harris, and this committee will suggest suitable names to the public meeting.

E. W. Prowse, on behalf of the Vernon Lodge of the B.P.O.E., said the Elks had planned a carnival on October 18 and 19, in aid of their Christmas Cheer Fund, but in view of war activities were willing to abandon it, or to devote a large portion of the net proceeds to the Red Cross if there was approval of such a course of action. The Red Cross members assembled gave approval and passed a recommendation to the public meeting, asking for acceptance of the Elks' generous offer.

WAR BULLETINS

Observers watching the progress of developments in the war situation in Europe are predicting that a move from Mussolini is imminent. They say he will propose an armistice, at the time that Germany's conquest of Poland is apparent.

This conquest may, however, be the Reich's gains against its smaller neighbor cannot be denied. On the other hand, the Poles may hold out. In a desperate, last-position stand, they may launch such a series of actions as may frustrate the Nazis.

On Wednesday night, however, Warsaw was expected to fall into the hands of the Germans. Mechanized advance units were within striking distance of the former Polish capital, from which the government has now been removed.

Krakow, an ancient city of Polish kings, is in German hands.

Germany claims to have taken 60,000 Polish prisoners in the Polish Corridor.

The liner "Bremen" is reported safe in an unnamed neutral port.

B. C. Red Cross is calling for experienced nurses.

Vancouver single unemployed who are not eligible for relief are joining in large numbers for active service.

More British Columbians reported as having joined the forces of the Athenian include the twin sisters, Kathleen and Jean Michie, of Vancouver, and also Jean Lambert, of Ladner, Mr. and Mrs. David Blair, Vancouver, and Mrs. Eva Blair, of North Vancouver.

As many as 33 members of the crew of the Canadian vessel "Doshin" have been picked up by a Norwegian vessel and landed at Lisbon.

A squadron of German bombers is reported to be in the air over the North Atlantic.

The first B. C. casualty war that is now embroiling Europe is Flying Officer Anthony Playfair, son of Col. and Mrs. Allan Playfair, of Qualicum, Vancouver Island. Flying Officer Playfair joined the Royal Air Force three years ago at the age of 20. He was to have been married this fall to Miss Helen Maxwell, of Cowichan, Vancouver Island. Another Canadian casualty reported this week was Flying Officer James Gavanagh, Ontario youth who was also killed in active service with the R. A. F.

planes was driven off by anti-aircraft batteries on the east coast of England. They escaped, unable to drop bombs.

French troops claim to have broken through the German frontier in the Saar valley, a rich industrial sector. Strasbourg with a population of 175,000 on the border, has been evacuated.

Britain is disclosing little information, London, however, is calm and cheerful.

The Polish garrison is still holding a munitions plant on the peninsula near Danzig.

TO USE ARENA?

Whether or not there will be a large training camp operated here for military purposes is not yet known definitely. The expectation is that there will be such a development.

There has been the rumor that the arena might be requisitioned for training, but no authorities here have as yet been approached in any way.

All Defence Branches Are Working At Utmost Speed

With the outbreak of hostilities in Europe and the entry into warfare by Great Britain and the German Reich, Canada, though not yet officially at war, has been quietly and unostentatiously preparing for the defence of its people and vital points of military importance.

While the whole of Canada waits tensely for the government's decision at Ottawa today, Thursday, when parliament meets to pass or reject orders in council that will determine Canada's part in the conflict, all branches of defense are working at top speed to ensure complete readiness.

In British Columbia, as in other parts of the Dominion, the permanent defense forces have been placed on full active service and the non-permanent militia units are rapidly receiving recruits.

Vernon Youths Answer Call

Many Applications For Enlistment In This District

Large Majority Express Favor For Royal Canadian Artillery Unit

In conjunction with other offices throughout the province, the local Provincial Police staff, under Sgt. H. W. King, is receiving applications for enlistment.

A large number of local young men have applied for enlistment in various units in the last few days.

A large majority of the men have expressed their desire to join the Royal Canadian Artillery, with the Royal Canadian Ordnance Corps, the Royal Canadian Engineers, and the Signal Corps close behind in popularity.

Among those who intend to enlist in the R.C.A., some of whom have already left for the coast, are: R. Wright, H. F. Ewer, R. Coatsworth, F. Trehearne, S. Hammond, R. Conley, G. Hale, A. Ecker, W. Cohen, A. Brewer, A. Livingston, and L. Holweg, of Vernon; L. Kieffer and T. Tronson, of Ewing's Landing; J. Lacroix and H. Brewer, Lumby.

R.C. Ordnance Corps: E. C. Sheppard, L. M. Sutherland, J. T. Tull, K. G. Lawes, T. C. Bingley, E. Passmore, H. Browne, J. W. McDonald, C. Cowin, J. C. Kugler and T. Kuruk, of Vernon; M. Hanbrook, of Falkland.

R. C. Engineers: H. S. Barton, F. Tepper, L. Roueche, F. Murray, N. Fedoruk and G. Wilson.

Among local residents who have left the city for active service are J. R. Kidston, who has been wired to report for naval duty at Esquimalt, and Lieut. Gordon Corbould, who has joined the Westminster Regiment.

Many New Exhibitors For Fair At Armstrong

Last Details Now Complete For Four-Day Program Next Week

As the Interior Provincial Exhibition prepares to open at Armstrong next week for four days, September 11 to 14, prospects point to a treat for visitors in advance of the splendid show of former years.

Among the features and changes that will greet the visitors the manager, Mat Hassen, states there will be the completion of moving buildings to new locations entirely clearing the interior of the race track for a full view of the races. The B. C. Red Cross is exhibiting a grandstand has been improved and a platform erected in front for entertainment features.

A striking example of the growth of the exhibition is the large number of new exhibitors entering in all classes.

Particular features this year will be the fruit display, the larger live stock exhibit and the industrial and special exhibits.

A new feature is the non-compulsive display being put on by the registered and certified seed growers of the Interior. This exhibit coming from all over the Interior, between Grand Forks and Kamloops, promises to be something special.

The Experimental Station at Summerland will be back again with its popular fruit products exhibit.

ARMSTRONG FAIR

(Continued on Page 4, Col. 7)

CITY GUARDING Important Points

Last Saturday, following a conference between police and civic authorities, prompt action was taken in establishing a guard over various municipal projects. This was done so as to prevent sabotage, which might result from the outbreak of war.

The B. X. pump house, Lake Street reservoir, Kalamalka Lake pump, Mission Hill reservoir, disposal works, and arena were the points where the guards were stationed.

The situation was reviewed at the Council meeting on Tuesday night, when it was pointed out that the need for municipal guards would probably be removed once war was declared.

Then, said Mayor Harry Bowman, the national government would probably assume control.

Capt. Philpott To Be Featured In Next Issue

Captain Elmore Philpott, whose regular feature, "As I See It," is winning an ever-widening number of admirers among readers of The Vernon News, will be the chief editorial writer for this newspaper next week. His well-informed handling of the international scene has been made manifest in the past, and now, with war gripping the world, his weekly next week should be awaited with interest. One of his regular articles appears on this week's editorial page.

TORONTO PAPER QUOTES VERNON NEWS EDITORIAL

The Toronto Evening Telegram, in its issue of last August 30, drew attention to the issue of The Vernon News of the preceding week, and laid special emphasis upon the front page editorial, "Canadians, Let Us Awake."

In an editorial, the large metropolitan newspaper said the following: "Vernon, B.C., is not a large community. It boasts about 4,000 inhabitants. But it is strong in its Canadianism and in its loyalty to the British Crown. It is well served by the Vernon News which, in a front-page editorial, speaks for a host of little British communities all across Canada."

"We have had enough of evasion which means nothing and leads nowhere," says the News. "The time is past when we Canadians, whatever our creed or politics, can sit on the fence."

It calls for a declaration now on which side Canada will stand—on the side of peace, security and freedom, or on the side of ruthless brutality. It points out that the European aggressors are seeking to extend their domination by taking forcibly the territory of a neighbor, just as they did with Czechoslovakia. Then it adds: "Think a moment! How does this concern Canada? How does this concern the United States? What can it matter to this Western World that Germany does take Danzig—the Polish Corridor—part of Poland itself—even dismember Poland and exert control and domination over her? Is it not of vital importance to Canada and to the United States? Is it not of moment to the Western World that once again Germany is on the verge of engulfing Europe, and probably the whole world, in yet another orgy of death and destruction? It is apparently not of moment to some of us that Germany is seeking to make herself so powerful that she can realize her ambition of reversing the result of the 1918-19 War? But with this difference: Whereas the 1918-19 Allies were content to permit Germany to exist in comparative freedom, be certain that a victorious Germany would impose rigid slavery on the vanquished just as she has done in the countries she has already raped. Make no mistake. A victorious Germany means that all

THREE TEAMS TIED ATOP BOXLA LEAGUE

Vernon Drops Two Games To Salmon Arm To Form Deadlock

	W	L	Pts.
Vernon	8	8	16
Kamloops	8	7	16
Salmon Arm	8	9	16

All three teams in the Interior Lacrosse League are tied with 16 points each as the result of the last two games between Vernon and Salmon Arm. The local team went down to defeat twice in as many games and the Salmon Arm squad climbed out of the cellar to take its place along with the other two teams.

In the Arena here on Tuesday night, Salmon Arm battled to a narrow margin win when they took the local team to camp with the score 18-14. The previous Friday they beat Vernon 19-10 on their home floor.

On Tuesday night Ron Conley held the local scoring honors with four goals while Bob Dobie was not far behind with three. For Salmon Arm, B. Morton also led the way with four counters while T. Morton, and Sheardot each claimed three.

The two teams were tied up at the end of the third period with the score 11-11. In the final stanza, however, the main liners took over the play and slapped in seven counters to Vernon's three and took the game.

Kamloops plays Salmon Arm tomorrow, Thursday at Salmon Arm. Then on Tuesday night the local boys will journey to Kamloops to meet the Klippers there. On Friday, September 15, Vernon and Kamloops will meet in the local Arena. With the league tied up as it is now, each team in the loop is ready to risk life and limb to take over the top position. Lacrosse fans are therefore assured of some really top notch games during the next week or two.

FIND NEW TRAIL UP BOBBIE BURNS AREA

TRINITY VALLEY, B.C., Sept. 2.—A group of people went up Mt. Bobbie Burns on Thursday. They claim to have found a newer and easier trail, than some previously used.

Angus Wood, of Lumby, has been visiting the valley recently in connection with the road work which is being done here.

Quite a bit of slashing of brush has gone on and some bridge work. There is very heavy traffic on roads. The number of cars and trucks on some days is surprising.

Harry Brett returned to Lumby on Wednesday, after visiting his sister, Mrs. S. L. Remsberg, of Trinity Valley.

A Choquette has the contract for putting in new windows in the school and has been putting in three new windows this week.

A Slogan for Vernon

The Vancouver Daily Province Wednesday in an editorial said: A slogan for Vernon—The good city of Vernon has shed its wilderness and its Frontier Days camouflage and become modern again. It has had its celebration, and a very successful one it was. Now it is feeling exalted in spirit and is ready to do things.

At the moment, it is said, Vernon is great demand for a slogan and an emblem, something that will fairly shout about Vernon and its products and its advantages to all who walk or run or fly. It has a lot of advantages, its lake, its sun, its fine dry climate, its apples, its mysterious lake monster whose name is known round the world. How can Vernon possibly get all these things into a phrase and a picture?

If Vernon wants an emblem, what is the matter with its very own Ogo-pogo—a lake monster, or rampant, on a lake azure, wavy? or what of its equally famed McIntosh Red—an apple, golden on a ground vert?

As for the slogan, the Vernons since the time of the Conqueror have had a very good one as their motto, "Vernon Semper Viret; Vernon Flourishes Continuously" or, the variation, a sort of pun, "Vernon Semper Viret; Spring Does Not Always Flourish."

Either motto is true enough so far as the apple city and valley it crowns are concerned. They flourish continuously, spring is not always with them; nor would they wish it to be. All the seasons pay them tribute each in its way. Spring is entrancingly beautiful in the orchards. Summer is the season of fulfillment and the famous mahogany sun-tan. Autumn is the season of harvest and winter the season when the fruits are enjoyed and preparations made for the busy days ahead.

Without any question Vernon flourishes continuously.

Medals Mark The Occassion

Souvenir of the dinner marking the 20th anniversary of Prime Minister King's leadership of the Liberal party was a medal bearing on either side of his likeness the heads of his grandfather, Toronto's first mayor, William Lyon Mackenzie, and Sir Wilfrid Laurier, from whom he assumed the chieftainship of the party. To Deanne Howe fell the honor of presenting the guest of honor with his special medal.

Breathing of Apples Studied for Storage

No one may have seen lungs in apples or pears, or have seen them breathe. Nevertheless, they do. For nearly five years the Horticultural Division, Central Experimental Farm, Ottawa, has been making an intensive study of the breathing of apples, and the result is that by a process known as gas storage it is possible to add fully 50 percent to the storage life of fruit.

The research work has been carried on by W. R. Phillips, assistant in Low Temperature Research at the Central Experimental Farm, under the direction of M. B. Davis, Dominion Horticulturist, and owes its origin to the fact that fruit is living material even after it is picked. It has reserved energy and the more this "energy" can be conserved the longer the fruit will last or keep. In their breathing, as in nearly all forms of life, apples take in oxygen and give off carbon dioxide in the process of respiration. It has been found that, if carbon dioxide is allowed to accumulate within and around the fruit, a preservative effect is produced. So, by storing the fruit in a gas tight room, carbon dioxide accumulates and the oxygen is reduced. It is this increased carbon dioxide and less oxygen that aids in the storage life of fruit. It is not, however, just as simple as it sounds. There are a multiplicity

of factors to be considered and reckoned with which take time and much patient concentration on the part of the research worker. As an example, if the accumulated carbon dioxide exceeds a certain concentration, the fruit will suffocate and die by what is termed a physiological disease. Under ordinary cold storage, apples and other fruits are stored in a temperature of 32 degrees Fahrenheit. At this temperature it has been found that McIntosh apples develop a disease termed Core Flush which soon completely spoils the fruit. Under gas storage at a temperature of 39 degrees Fahrenheit with about 7 percent carbon dioxide and 14 percent oxygen, they can be kept 50 percent longer, at a given temperature, without core flush developing, and retain fully their fresh, firm appearance. The economic advantage of this to the fruit producer and to the consumer is obvious.

While gas storage of fruits has advanced to an encouraging point in England, it has not yet been tried commercially in Canada, but so successful have the experiments carried on at the Central Experimental Farm proved to be that a plant is shortly to be privately operated in Montreal. The construction of the necessary chamber will be similar to those now operated by the Horticultural Division.

When gas storage of fruit becomes fairly general it will mean that the storage of Bartlett pears, for example, can be extended for several months and will retain all their lusciousness at the end of this period. Similar conditions may apply to other fruits and even vegetables.

Vancouver. He is located in the home previously owned by the late Alphonse Laplante.

It was with deep regret that residents of this community learned of the death of Mrs. A. J. Heywood, of Salmon Valley, at the Vernon Jubilee Hospital, on Saturday. The deceased was well known here, where she had many friends.

Mr. and Mrs. W. Warren had as their guest last week their nephew, Dr. Harry Warren, professor of geology at the U.B.C., Vancouver.

Mr. and Mrs. B. V. Davies, young son, John, returned from Vancouver on Thursday, where Mr. Davies has been attending summer school sessions at U.B.C. He will resume his duties as principal of the school on Tuesday.

Several extra men are employed at the gypsum mine for an indefinite period, to fill orders for rock. They include, Tommy Aitken, of Glenelmu, Donald Ferguson, John Swift, and Clarence Henderson.

George Smythe left for Alert Bay on Monday, where he has obtained employment.

Mrs. Chris. Bailey left for Princeton last week to join her husband, who has been working there for several weeks.

Mrs. T. Aitken, and five daughters, of Glenelmu, spent last week end here visiting friends.

Mr. and Mrs. M. Lowe, of Kamloops, were the guests of Mr. and Mrs. L. Henderson, on Sunday.

Miss Helen Kent was the guest last week, of Mr. and Mrs. B. Culling, of Westwood.

After a two weeks' holiday with his brother-in-law, Mr. and Mrs. W. Warren, Victor Warren returned to his home at Vancouver, on Wednesday.

Mr. and Mrs. H. C. Beddes have as their guest, W. Wheeler, of Vancouver. Their daughter, June, returned home on Sunday after spending the summer holidays at the Coast.

Miss Ella Clark is home again after several weeks' visit in Vernon with her sister, Mrs. G. Netzel.

Mrs. J. Roberts and Mrs. W. Mills, of Vernon, were the guests of Mr. and Mrs. R. Hatfield last Sunday. Mrs. O. M. Parker spent several days during the week visiting Mr. and Mrs. P. Tarry.

Mrs. P. H. Wilmut is home again after several weeks' holiday at Enderby and Mabel Lake, convalescing from a recent illness.

Miss Thelma Clark and Miss Amy Pritchard, of the Vernon hospital staff, paid a brief visit Friday, to the former's parents, Mr. and Mrs. Lou Clark.

Jack Hunt spent the week end in Vernon.

Owen Beddes returned home on Thursday after a two weeks' holiday at the home of Corporal R. B. Nelson and Mrs. Nelson.

The War Measures Act

Premier King has announced that the Government will take all precautionary steps that may be necessary, in view of the threatening war crisis, under the War Measures Act of 1914, which is still on the statute books. That Act, giving the Government sweeping powers, was passed at the short emergency session held from August 18 to 22, 1914. The clauses containing its extraordinary provisions were to be in force only "during war, invasion, or insurrection, real or apprehended." The existence of such a condition was to be proclaimed by the Government, which would later proclaim the termination of that condition, when the special powers of the Government would lapse.

Any action taken under the Act now, therefore, will be after proclamation by the Government of the existence or threat of war.

The vital part of the Act is Section 6, which empowers the Government to do anything which it thinks "necessary or advisable for the security, defence, peace, order and welfare of Canada; and for greater certainty, but not so as to restrict the generality of the foregoing terms, it is hereby declared, that the powers of the Governor in Council shall extend to all matters coming within the classes of subjects hereinafter enumerated, that is to say:

- (a) Censorship and the control and suppression of publications, writings, maps, plans, photographs, communications and means of communication;
- (b) arrest, detention, exclusion and deportation;
- (c) control of the harbors, ports and territorial waters of Canada and of the movements of vessels;
- (d) transportation by land, air or water and the control of the transport of persons and things;
- (e) trading, exportation, importation, production and manufacture;
- (f) appropriation, control, forfeiture and disposition of property and of the use thereof."

This gave the Government very wide power to do everything necessary to promote a maximum effort during the war and to deal with persons or conditions that hindered that effort. The Government could control all publicity; could make use of private property as it saw fit, and could interfere in any necessary degree with trade, transportation or any other phase of the economic life of the country.

It was expressly stated that the detailed powers mentioned in Section 6 did not limit the authority which was being conferred on the Government to do everything, not only for security, defence and order, but also for the "welfare of Canada."

What does that not include? There is virtual suspension of the Habeas Corpus Act in Section 11 of the Act, which says that no person who is held for deportation under the Act, or who is under arrest or detention as an alien enemy, or on suspicion that he is an alien enemy, "shall be released on bail or otherwise discharged or tried, without the consent of the Minister of Justice."

And Section 12 amends the Immigration Act to provide that no resident of Canada, Canadian citizen or not, who leaves Canada to perform any military or other service for any enemy country shall be allowed to land in Canada again "except with the permission of the Minister."

Provision is also made for compensation for property used by the Government and for penalties for infringement of any orders or regulations made under this legislation.

The actual military effort of the Government was provided for in 1914 by the Military and Naval Act, Bill and the Finance Act was passed to enable the Government and the banks to meet the difficulties created by the war emergency.

MISS ENA CATT AND ERNEST McALLUM MARRIED AT LUMBY

LUMBY, B.C., Sept. 5.—A wedding of general interest in Lumby, took place on the morning of August 30, when in a quiet ceremony at the bride's home, Ena Mary, eldest daughter of Mr. and Mrs. I. C. Catt, of Lumby, was united in marriage to Ernest, fifth son of Mr. and Mrs. W. O. McCallum, of Pictou, Nova Scotia.

The wedding vows were exchanged with the Rev. Father Oragg officiating. The bride, given in marriage by her father, wore an afternoon frock of sand silk with Japanese accessories. She was attended by her sister, Joy, who wore a light blue afternoon dress with navy accessories. Both carried bouquets of carnations and roses.

The groom was attended by Henry Catt, brother of the bride. After the ceremony the principals, with Mr. and Mrs. Catt, Father Oragg, Joy, Nicky, Henry and Donald, sat down for a family dinner.

Later in the day the bride and groom left for Calgary, where they will reside. A large number of friends saw them off and gave them their best wishes.

VERNON RINKS WIN TWO BOWLING CUPS

Stirling And Blaney-Calderhead Trophies Secured By Local Players

Two bowling championships of the Okanagan Valley were won on Labor Day, Monday, September 4, by Vernon rinks. The Stirling Cup and Blaney-Calderhead Cups both coming to this city.

Kelowna played host to lawn bowlers from Penticton, Summerland, Vernon, Armstrong, and Salmon Arm, the doubles and singles matches being played on the Kelowna Club greens and the men's and ladies' foursomes playing their games on the Vernon greens. The Kelowna Lawn Bowling Club was in charge of the matches both in Kelowna and Vernon.

In the main men's championship, the Stirling Cup was captured by a Vernon rink skipped by W. W. Moore, who defeated Marshall, of Armstrong, 22-20 in the final match. Teams which had been eliminated in the Stirling Cup event went into the Heggie Cup play and two Kelowna rinks found themselves in the final, with Don Whitham's foursome defeating Tom Griffith's rink 19-16 to capture the cup once more.

In the Stirling Cup, Whitham's rink was eliminated by Griffin, of Vernon, 18-7. Tom Griffiths defeated Day, of Salmon Arm, in the first round, 16-15, but lost out to W. W. Moore 11-10 in the second round.

Going into the Heggie Cup play, Whitham's rink eliminated two Penticton rinks, A. A. Swift by a score of 14 to 12 and Jim Whitehead by 18-12. Then Whitham played Griffin, of Vernon again and gained revenge for the defeat in the Stirling Cup by eliminating them 26 to 14. Griffith's rink from Kelowna defeated Wilson, Armstrong, 16-12 and then eliminated Taylor, Summerland, 16-14 to go into the final against Whitham's foursome, and lose out by a 19-16 score.

At Kelowna, the singles play was a close call between two Summerland men. John Tait amassed 53 points while Harry Williams, also of Summerland, had total of 52 points.

In the doubles matches played in Kelowna, Harry Bowser and S. M. Gore triumphed with a total of 49 points. J. A. Lebrun and R. N. Bray, of Salmon Arm, were second with 40 points.

Two Vernon ladies' rinks were top in the ladies' section played at Vernon for the Blaney-Calderhead trophy. Mrs. Hurlburt, Vernon, had three wins and a total of 76 points in the American tournament staged to decide the winner of this cup. Mrs. Pearson, Vernon, had three wins, as well, but only scored 72 points.

Mrs. Ben Hoy's rink from Kelowna had two wins and 53 points and Mrs. Harry Bowser's Kelowna rink had two wins and 44 points. The other rink in this competition, skipped by Mrs. Campbell, Salmon Arm, failed to win a match.

In a consolation men's foursome, played after the Heggie Cup games, Wilson, of Armstrong, won from Charles Griffin, Vernon, 18-10.

CONSIDER FORMATION OF ANTI-SABOTAGE GROUP AT KELOWNA

KELOWNA, B.C., Sept. 6.—Anti-sabotage committees are being formed in a large number of cities and towns across the Dominion. The purpose of such committees is to adopt plans and make all possible arrangements to protect the city from any act of sabotage. Efforts of the committees are directed towards protecting water supplies, lines of transportation and sources of power.

Whether or not such a committee will be formed in this city is not known at present. Mayor O. L. Jones when approached admitted that the matter had been discussed with government officials but that at the present he was waiting for further word from Victoria.

Such a committee would co-operate with the police for the protection of various municipal services and other key services.

CANADIAN CANNERS OPERATE

KELOWNA, B.C., Sept. 6.—Plant of the Canadian Cannery in Kelowna has been operating for the past two weeks on tomatoes with a half crew of about 75 men and women. A. I. Dawson, manager of the Canadian Cannery (Western) Ltd. plant here states that the total output of tomatoes contracted for will be handled. Tomatoes are not grading well and are running heavy to No. 2's, he states.

Following the tomato pack, this plant will be turned over to apple processing and will probably continue to operate until Christmas. The Rowcliffe Cannery plant has not been working steadily and although it expected to have a rush of supplies on Tuesday, only a half day's run was experienced. Unless further supplies are forthcoming, L. J. Kelly states that the cannery will be turned over to canning other food products.

WORK ON NEW BY-LAW

That he was not yet quite prepared to bring in his recommended schedule of water rates, to be used under a metering system, was the report made to the City Council on Tuesday night by Alderman A. C. Wilde, chairman of the waterworks department. Much work is necessary in the preparation of a new by-law.

Now is the time to let us give your Battery a complete check-up before winter.

The most up-to-date Equipment.

Stalin Reviews His Air Fleet

Even as western European powers are calling up fresh reserves, Soviet Russia has announced the calling of an additional 500,000 men to the colors. Here Joseph Stalin, leader of the Soviets, is seen surrounded by a group of Communist leaders as he watched the annual Soviet "aviation" holiday near Moscow. In the group are: Premier and Foreign Minister V. Molotov (wearing white golfing cap—no dark glasses); Klement Voroshilov, war commissar; L. Kaganovich, A. Zhdanov, A. Mikoyan, L. Beriya, N. Shvernik, A. Vyshinsky, S. Budenny, A. Loktionov, and others.

Fruit Prospects . . .

(Continued from Page 1)

can funds works to the advantage of the British Columbia fruit growers in that it provides an additional preference to the extent of the depreciation of the Canadian dollar below the U.S.

TORPEDOING AFFECTS PLANS

KELOWNA, B.C., Sept. 6.—The first movement of Macs in any quantity was due to leave Montreal on September 15 on the ill-fated Athenia. Torpedoing of that ship naturally cancelled that arrangement. A small shipment of pears, early Macs from the extreme south of the valley and Wealthies left Montreal on Saturday, September 2, on the Letitia but she was stopped in the St. Lawrence, ordered back to port and unloaded. The Letitia shipment, it is now expected, will go forward on the Delillon on Friday, September 8.

The cargo space which will be available during the next few months for fruit is purely a matter for conjecture. Fruit exporters in the Okanagan have been endeavoring to size up the situation and on Tuesday were fairly confident that fruit would continue to move. They base their belief on the fact that at present space is not restricted and is obtained fairly easily. Then, too, steamship officials seem confident that space will continue to be available while British buyers are also of the same opinion.

It is pointed out that the opportunity should be one which would appear to be a matter of time. It is anticipated that vessels of foreign countries will be available for transport to Pacific coast shipping and there is a possibility that more Okanagan fruit than usual will be shipped from Vancouver. A Swedish line on Tuesday cancelled a Vancouver sailing, which was due to carry a cargo of fruit but other lines were loading freely in Vancouver on Tuesday.

85 PERCENT SOLD

Almost 85 percent of the entire export crop had been sold two weeks ago. This is an unusually high percentage so early in the season. Of this amount some 60 percent had been sold on a firm basis and exchange had been arranged for. This means that the deals were signed, sealed and the money would be handed over as soon as the buyer received his bill of lading. In other words, as soon as the fruit was on the ships, the deal was completed.

The question of space enters here. If space is not available, these deals cannot be completed, but if space is available, the responsibility becomes the buyer's as soon as the ship sails. Should anything happen en route the loss is borne by the buyer.

The remaining 25 percent was sold on a firm basis by small shippers, generally speaking, to small importers. Exchange had not been arranged on these shipments. Stirling during the past ten days has dropped in value enough to cause a difference of about fifteen cents a box in the purchase price. These buyers would naturally be at a disadvantage in competing with buyers mentioned above who had purchased their exchange. Cancellations of some of these small orders naturally followed. It is estimated that about

fifteen percent of the 25 percent has been cancelled but it is expected the remaining 10 percent will remain as the buyers in this case have decided to absorb their loss.

The net result at present seems to be that if space is available and fruit moves freely across the Atlantic, some three quarters of a million boxes will have to be shipped over on consignment or otherwise disposed of. This represents the present unsold portion of the crop.

The question of Nova Scotia apples is also concerning the local exporters. In other years these have been shipped by tramp steamer and it is feared that these may not be available for this purpose this year. Some of these hardy craft may decide to travel without escort and there is a possibility that if fleet-convoys systems are arranged, the tramps may be taken into the group. If such were the case, Nova Scotian apples might find space available.

EASTERN COMPETITION

On the other hand, it is quite possible that the eastern apples may require some of the space which is normally be available for B. C. fruit.

Ontario and Nova Scotia fruit is not usually sold with exchange arranged and it is just possible that few sales have been made as yet from these two provinces. Should these two provinces be unable to send their normal quantity of apples overseas their crops would back up into the domestic market. Nova Scotia would probably flood the Montreal market and when this condition has arisen before there have been plenty of cheap apples available in that city. The Ontario crop would be sufficient to fill the requirements of that province.

No rise in the conference ocean freight rates can be made at the present time but it is expected in the future that rates will be increased, due to war risk. All Norwegian boats have been ordered into neutral ports on the Pacific, but if necessary, fruit may be shipped to Seattle and loaded on these boats. No other difficulty is expected on the Pacific.

What protection will be afforded ships sailing from the Pacific coast through the Panama and entering the Atlantic has not been made known.

The executive of the Federated Shippers' Association is meeting in Kelowna on Thursday and will discuss the situation thoroughly.

While the picture at the present has many dark aspects, it is not wholly dark. The domestic markets are better at the present than they have been in years and there is a strong body of opinion which maintains that the domestic market will remain firm and steady.

British buyers seem confident that space will be available and steamship officials feel the same way. Should space be available for the B. C. and Nova Scotia crops, the anticipation is that the export deal should evolve itself in a fairly normal manner.

WINS CAR AT PENTICTON

Miss S. Olsen, Blakelyburn, B.C., was the winner of the car in the Knights of Pythias prize drawing on Labor Day evening in Penticton. Her lucky ticket was 1596. Among the minor prize winners, who had

Hereford Cattle From Here Take Coast Awards

R. N. Clerke's N.C. Ranch is this district's only exhibitor of cattle at the Kamloops Fall Fair which ends today, Thursday, after a two day exhibition of farm products and live stock.

Mr. Clerke has entered 12 head of Hereford cattle for which his ranch is well known throughout the province. The N.C. Ranch was one of the outstanding exhibitors of Hereford cattle in the live-stock division of the Canada Pacific Exhibition at Vancouver.

The awards won by the Clerke farm in Vancouver were second place in the class for two year old bulls, second place for senior yearling bulls and third place for junior yearling bulls, second place for senior bull calves, second for a group of aged cows from 3 to 5 years, second for group of aged cows with calf at foot, a third for two year old heifers and a third for young yearling heifers.

Poland

(Continued from Page 1)

of conjoined strategic positions which he will ultimately have to defend. It is conceded that at long last the Polish army will be forced to fight a war of position. If, however, the swift-striking, Polish mobile forces succeed in preventing the junction of the various German armies, then a war of manoeuvre may obtain for a considerable time.

In an effort to relieve the pressure on Poland the French have launched a determined offensive against the Seltgried Line. Even a limited French success against these fortifications would have a profound effect on the Polish situation. It would undoubtedly entail the hurried withdrawal of large numbers of German troops from that front.

Exactly what Britain is doing to relieve the strain on Poland is not definitely known. It is believed, however, that a British army has already landed in France . . . probably at Cherbourg. The Royal Navy is "somewhere in the North Sea" and may surprise the world with a Nelsonian coup. Planes of the Royal Air Force have already successfully bombed the Kiel Canal, and Schweinmunde. The air-fleets, which have been so widely advertised for distributing paper-chase fodder . . . and possibly miniature umbrellas, over Germany, will, in addition, have gained valuable information. Their pilots will probably carry "billet doux" of the 1914-18 vintage on their succeeding flights.

The fighting forces of France and Britain will make every sacrifice to aid the Poles in their heroic struggle against ruthless foes. It is too early yet to expect material results.

An opportunity to win the car in the first batch of tickets drawn from the draw, was a ticket held by A. D. Carr-Hilton, of Kelowna, with ticket No. 11201.

These Are Some of Poland's Bombers

Pursuing his way through the turmoil of European crises, Poland displayed a plucky front in face of provocative utterances of German spokesmen. Despite warnings of what would befall her if she refused to surrender to Nazi demands, the country has maintained the attitude of a poker player with an ace in the hole. Some Polish army officers claim that

Poland's air force is such an ace. A few of the nation's fighting planes are shown lined up at an airrome that outside Warsaw. It is extremely likely that these are some of the fighters who gave Berlin a taste of how it feels to be bombed, just three days ago.

Armstrong Fair

(Continued from Page 1)

Changes not published or advertised are being tried out with a view to making the Exhibition of more value to farmers and more interesting to visitors.

Horse racing both Wednesday and Thursday will provide the major attraction. However, a Kamloops athletic troupe will provide thrills between races to keep the afternoon program completely filled.

The Exhibition in all its phases has gone far past the place where it justifies its existence. It has become a vital factor and force in the forward development of agriculture in the Interior of British Columbia. It is even more than that. Leading agriculturists and business men throughout the province and from other parts of the Dominion are coming to see the Exhibition for what it is—a leader.

STARTED IN 1900
What is now known as the Interior Provincial Exhibition with its headquarters in Armstrong started in the year 1900 as a small local fair under the name of the Armstrong and Spallumcheen Agricultural Society.

The first events were held in a hall behind one of the stores in Armstrong and this was under the presidency of that fine old Scotsman, Donald Matheson, who retained that position up to the time of his death in 1914. Mr. Matheson was ably assisted by a fine band of old settlers, some of whom, notably W. T. Hayhurst, are still active as directors.

The institution had a gradual growth through the years and as it kept expanding requiring larger quarters as it outgrew the accommodation provided from time to time till it became an "Exhibition" in 1930 and received added recognition from both the Provincial and Dominion governments as well as the Municipal and City Councils who, with the consent of the ratepayers, were always ready to assist the association financially. This was with the feeling that the maintenance of the organization was a great benefit to the agricultural life of the community. By the work it was carrying on it was bringing about the improvement of both live stock and field crops as well as other lines of endeavor.

A notable fact in the smooth working of the organization is indicated by the small number of presidents who have held office during the 37 years the association has been in existence, these being: Donald Matheson, Henry Hawkins, James McCallan, John W. Cross, Charles H. Hardy, William Hornby, Percival E. French, Reginald M. Eccles, E. Fremont B. Cossitt, and T. Wadsworth.

This year's exhibition promises to be a record one in every respect. The exhibition now serves the agriculturists of the Interior in a manner that never could have been hoped for by the carrying on of local fairs, all of which have retired from the field in an effort to throw support to the larger institution.

KELOWNA PASSENGERS FEARED ON "ATHENIA" ARE REPORTED SAFE

KELOWNA, B.C., Sept. 6.—Three Kelowna families received news of the sinking of the liner Athenia with anxiety on Sunday as members of their family are in Britain and were to sail from the Old Country about last week end. However, cables received here this week advise that these Kelowna persons are safe.

Mrs. D. R. Butt and two daughters, Gwen and Joan, cabled on Monday that they are safe in London and intend to sail on a Canadian Pacific boat from Southampton on September 9. They will probably book passage on the Empress of Australia which is expected to sail from Southamton on that date.

Mrs. R. Rhodes and daughter, Elizabeth, informed Mr. Rhodes in Kelowna by cable on Tuesday that they had not sailed from England yet. Mr. Rhodes cabled back the same day advising them to wait until the convoy system is properly organized, before booking passage.

CLIVE PLANTA TO SPEAK ON THE ALASKA HIGHWAY

KELOWNA, B.C., Sept. 6.—Clive Planta, former M.L.A. for Penticton River, and a well known figure in British Columbia circles, will address the Kelowna Junior Board of Trade at its first general meeting since the summer recess. This monthly meeting will be held in the Royal Anne Hotel on Friday, September 8.

Mr. Planta will speak to the young business men on a subject of much interest to the Okanagan Valley in the past few weeks—the Alaska Highway. He will approach the subject from a different angle to most speakers, it is expected, as he was in contact with the situation long before any publicity was given to the movement.

Town and District

"Bobbie" Shillam, who is employed in Vancouver, spent the week end at his home in this city.

Miss Ruth McMordie, of Vancouver, visited Mr. and Mrs. F. H. Meek over the Labor Day holiday.

Mr. and Mrs. J. S. Vollet returned on Wednesday after a short trip to Wenatchee and Grand Coulee dam.

William Meek, of Vancouver, was a week end visitor here at the home of his parents, Mr. and Mrs. F. H. Meek.

Frank Harris left on Tuesday for Penticton where he has temporarily joined the editorial staff of the Penticton Herald.

Gene Homer-Dixon, of Vancouver, was a holiday week end visitor at the home of his mother, Mrs. H. E. Homer-Dixon, of the Coldstream.

Bertram Megaw, of Vancouver, spent the week end visiting here at the home of his parents, Mr. and Mrs. W. E. Megaw. Mr. Megaw was accompanied by Miss Helen Medforth, also of Vancouver.

Mr. and Mrs. J. S. Galbraith have as their guest this week, their son-in-law George T. Jackson, of Ottawa. Mr. Jackson is an investigator for the Civil Service Commission and is making an official visit here in this capacity.

A former employee of The Vernon News, Nigel Pooley, was in the city on Monday en route to his home in Kelowna. Mr. Pooley, for the past several months, has been in Northern British Columbia, in the Francois Lake section.

A visitor here for a brief period on Friday last was Air Commodore Herbert Hollick-Kenyon, who is an inspector for Trans-Canada Air Lines. He had visited the airport at Oliver and passed through the city en route to the prairies. Among those greeting him on Friday on his arrival here was Major H. R. Denison, of this city.

One of this city's best known young art students, Miss Janet Middleton, was one of the most successful exhibitors in the display of art at the Kelowna Fall Fair this year. Miss Middleton's entries, which included water colors, pencil sketches, and photography, won seven first prizes, one second, and a third.

Visitors to valley points last week were Mr. and Mrs. Hugh Savage, of Duncan, Vancouver Island. Mr. Savage, publisher of the Cowichan Leader at Duncan, had attended the Canadian Weekly Newspaper Association convention in Niagara Falls last month and then took an extensive trip by motor through the United States. While in the Vernon district they visited the Fairbridge Farm School at Fintry.

The Hon. Grote Stirling, of Kelowna, B.C., for Yale, passed through Vernon on Friday last bound for Ottawa to attend a Conservative party caucus and the special session of Parliament, which convenes today. Thursday. Owing to the summing-up of Parliament and the outbreak of hostilities in Europe, the Conservative picnic at Petrie's Corner was cancelled. Mr. Stirling was to have been one of the speakers, with other leaders of the party.

ALL QUIET AMONG SOUTH OKANAGAN GERMAN SECTION

OLIVER, B.C., Sept. 4.—To outward appearances all is quiet among the pro-Nazi element in Osoyoos district, but a close watch is being kept on the government irrigation project and the Oliver waterworks. Guards are also watching the local transformer station of the West Kootenay Power & Light Co., with lines running from Oliver to the mines at Hedley and Princeton, and also to Penticton. Every precaution is being taken against possible sabotage of public utilities.

The pro-Nazi element at Osoyoos, which was quite active this summer, has been extremely quiet during the last few days, and police are keeping close tabs on the more radical members of the group. Police are said to have a complete record of every German national and every Canadian German in the Oliver-Osoyoos district, and their movements are being carefully followed.

With a strong branch of the Canadian Legion at Oliver, ready to act in case of emergency, it is expected that any situation arising here can be taken care of without difficulty. Already two local men have been killed to the colors. Clarence A. King, of the Royal Naval Reserve, left last Thursday on receipt of orders to report for duty, and John I. Hope, left Saturday to join his unit at the coast.

Speculation exists regarding the big government airport at Oliver. It is considered not altogether unlikely that the airport may be put to use as a training station for the air force.

Refrigeration In Transport of Fruit

In comparatively recent years refrigeration has revolutionized trade and commerce in perishable commodities. Fruit and vegetables, for example, may be harvested from ripe, transported, and stored under refrigeration to be put on the market throughout every season of the year according to the necessities of demand. It has been the policy of the Dominion Department of Agriculture, to keep abreast with every development in connection with improvements and new features of refrigeration and cold storage as they apply to the transportation of perishable goods.

Where War Is Most Severe

Above is a map of Poland, where war is at present raging in its most severe form. Today, Thursday, the fall of Warsaw seems indicated in news dispatches. Germany has taken the corridor, swept south from East Prussia, and also north from Slovakia in a "pinchers" movement.

MRS HELEN HEYWOOD IS LAID TO REST

Funeral services for Mrs. Helen Heywood, one of the North Okanagan's best known residents, were held from the Zion United Church in Armstrong, on Tuesday afternoon, Sept. 5, at 2 o'clock. The Rev. G. G. Boothroyd, officiating, conducted the ceremony, assisted by Rev. Bishop Black, of Falkland. The Rev. Mr. Rowland took the service at the graveside.

Mrs. Heywood was a well known and beloved character in the Salmon River district and a large number of her neighbors and friends were present at the funeral to pay their last respects to the woman who had been such a good friend to them all. Also in attendance was a large company of Indians from that district who had also been the recipients of Mrs. Heywood's generosity.

She was born at Stamford Hill, London, England, 67 years ago. At West Belling, on February 6, 1906, she married Arthur J. Heywood and six years later they came to Canada.

On their arrival in the Okanagan they settled first in the Armstrong district and a year later moved to the Salmon River location that is now known as Heywood's Corner, which has been their home ever since.

Mrs. Heywood's death was a sharp and unexpected blow to all her many friends. Shortly after returning from a holiday in Victoria, she suffered a severe heart attack and was taken to the Vernon Jubilee Hospital. There she was apparently on the road to recovery until on Friday she suffered a relapse which led to her passing on Saturday.

Besides her husband, Mrs. Heywood is survived by one daughter, Nancy, and one son, A. Douglas Heywood, all of Heywood's Corner.

GOOD RECEPTION

(Continued from Page 1)

experienced than for many years past.

"The quality of Wealthies in all shipments continues this week," states Dave McNair, "and they have given excellent satisfaction to the trade besides producing plenty of repeat business. Up to Wednesday night we shipped, after nine days on the water, some 65,000 boxes," he stated.

Some 70,000 packages of prunes have been shipped up to the middle of this week, he continued. The demand is good but low priced Washingtons still continue a threat.

Sundry varieties of plums have now been pretty well all shipped and the deal is moving into Pondera Seedlings, Damsuns, and Yellow Eggs.

Cool weather has retarded peach picking but markets are steady on Elbertas. A five-cent advance on J. H. Innes was announced by Mr. McNair, which brings the price to 10 cents and 85 cents for No. 1 and No. 2 Innes. The three Vn and Rochesters are now through.

An active demand continues for Bartlett pears and orders are coming in more freely for Flemish and Boussock pears, he concluded.

MEINTOSH PICKING GENERAL AT OLIVER

OLIVER, B.C., Sept. 4.—Inale and Elberta peaches are arriving at local packing houses in large volume, although the peak in these varieties is not yet reached. The quality is of good quality and yields on the whole are good. McIntosh apples are being picked, also prunes and a few 'Anjou' pears. A few cantaloupes are still dribbling in.

MRS. C. ANSELL Teacher of Dancing

HIGHLAND - RUSSIAN - DUTCH - MEXICAN - SPANISH & CASTANETS

BALLET - TOE - ORIENTAL - TAP - IRISH

HITLER'S WAR ON POLAND THREAT TO ALL CIVILIZATION

ONCE again Germany wages war on civilization. As was the case a quarter of a century ago, Great Britain accepted the armed challenge and declared a state of war with Germany, in fulfilment of treaty obligations, Canada, as a daughter of the British Empire, stands by the Mother's side, as will the other Dominions and colonies.

We enter this life-and-death struggle, knowing it to be what it is—a filthy business. We accept our part because there is no other course, none open to those who have eyes to see and an understanding of Hitler's will and purposes. We Canadians gave no pledge to Poland but we know the attack the Germans launched, imperils everything we hold dear and sacred. Therefore we fight, not as those without hope, but because the threat is to Christian civilization and our continued existence as a free people.

Responsibility for the commencement of this war can never be questioned. It is German—Hitler, in Germany's name, made demands. Great Britain and France, in formal communications, stated their willingness to examine such demands in an atmosphere of calm reasonableness. Hitler's reply was the sudden thunder of guns and the poison gas of an undeclared war on Poland.

The British and French reply even then, was not an immediate declaration of war. There was a pause.

Rightly or wrongly, British and French leaders listened to an Italian invitation to a five power parley. And for more than fifty hours the sturdy Poles alone bore the full force of an invader's hate and armed might.

At this time, at the commencement of the struggle which may last for years, Germany fights alone. It is her selfish plans which are being served by the attack on Poland and her erstwhile allies Italy, Russia and Japan did not march in step. Neither did Spain nor Eire. They are not lending military aid to Germany. Mussolini is making noises as though he might remain faithful to the alliance with Germany but the longer delayed is active participation in the struggle, the less likely are the Italians to risk the grave damage and losses their long sea coast would undoubtedly sustain.

The Russian situation is typical. For years Russian Communism has been the bogey held up by Hitler as the beast in a capitalistic world. In a lightning change of front the German leader made a pact with Stalin, assuring his armies and peoples, or so he purposed, raw materials and food stuffs.

The immediate effect was a complete change of the Japanese position followed by a reported statement of neutrality by that country. Thus Hitler lost the support of a warlike ally, in exchange for what? The dubious hope of assistance by a people Nazis have for years held up to hatred and ridicule. If Russia lives up to its recent pact, Germany secures supplies of munitions and food stuffs. If Russia remains neutral, Germany can have what she can pay for, in the way of war supplies and foodstuffs, a privilege to be shared by the Allies.

The Russians, like the Germans, will likely take the course which Stalin believes will profit their designs the most and leave him free later, to work his own particular purposes in a war-torn world. As evidenced in the last struggle, Russian entry into war, on any side, does not ensure continuance. It would serve to divert, to some extent, the Japanese army's activities in the Orient.

The neutral position which Spain occupies was to be expected. That country is exhausted after an interminable strife, promoted, encouraged, and prolonged by Italy and Germany who coveted the mineral wealth of that land. Spanish problems are a rebuilding of the homeland, not participation in war in another theatre.

Neutrality by Eire is another example of the twisted intellect by the people of a section of Ireland. The Southern Irish people live and owe an measure of prosperity this day, to the toleration of Britain. Members of the Irish Republican Army have embarked on a campaign of sabotage in Britain which may or may

not have assisted in the sinking of the Cunard-White Star liner *Athenia* within a few hours of the British statement of war with Germany. If it should be proven that aid and encouragement lent to Germany, played a part in this atrocity, the people of Eire have forever smeared their good name. Also it may be a reflection on the British Admiralty that the ship was permitted to sail without a convoy.

In the conflict which Hitler has launched, some measure of responsibility must forever rest on the German people. They permitted this madman to take over a power which is incompatible with the liberty of a free people. The conception and growth of the Nazi organization was tolerated. For certain purposes it was encouraged and when its true character was revealed to the world, Germans were unable to throw off the malign influences that had fastened on them. This much may be said on their behalf, there is not the unity of purpose or the same national will to war, with which they entered the struggle for world mastery in 1914. On behalf of their masters, the Nazis, it can be predicted that when the day of Allied supremacy comes, such Nazis will be as craven in defeat as they were arrogant when they appeared to have the advantage.

It is typical of the British people that one of the first activities of the air force should be the distribution of pamphlets over German territory. The British are taking a long range view. They are prosecuting the war with vigor. They are looking forward to the day when Herr Hitler and the Nazis will be overthrown. To assist in this, they are attempting to furnish to the people of Germany, information which has hitherto been denied them. It is hoped to stimulate the indignation which must soon be forthcoming.

It is doubtful if the British people realized fully what the sinking of the *Athenia*, the nature of the

war which Germany will conduct. In the last struggle they introduced the frightfulness of the submarine, poison gas, and liquid fire. This time, their undeclared war has already been visited on defenseless peoples. It was no enlargement of the frightfulness they had embarked upon, to sink without warning an enemy owned ship, no matter the nature of its cargo, nor the peacefulness of its purpose or destination. The microbe war is only a matter of time and opportunity. There is nothing Herr Hitler's agents will stop at, which in their view will assist their will to victory.

The failure of German frightfulness in the war of 1914-1918 has not taught them anything. Its extension and continuance strains Allied purposes and makes it impossible for Christian peoples long to continue in a state of neutrality.

The President of the United States has declared the neutrality of that country. Although no doubt he realizes the impossibility of continuance in such a course, for the moment he can do nothing. He will preserve neutrality until the Germans drive the United States into the war. It could hardly be otherwise. Although the people of the United States are in a different frame of mind from that of 1914, as a nation there is a desire to preserve peace. Millions of the American people at present see no cause for interference in a war in Europe. Until they see what we see—the dire threat to democracy and democratic institutions in the German march on Poland—they will keep out of war.

At the last session of the United States Congress, President Roosevelt did his utmost to secure the defeat of the neutrality law under which supplies are forbidden to nations at war. Domestic politics resulted in the defeat of the President's efforts and the result is that a belligerent nation can buy war supplies in the United States. That this measure will for long remain an obstacle in the way of profitable business war will admit, although in the name of politics our neighbors

have done some remarkable things, and in doing them, broke the heart of a war-time President.

Premier Chamberlain has been proved to be wrong in so many estimates of the course of events, that it would be strange if he now holds that degree of confidence which is necessary for the prosecution of a war to save civilization. Of his sincerity there is never a doubt. But Britain cannot afford to be wrong any more.

In Canada, the calling of the Dominion Parliament and the invocation of the provisions of the War Measures Act was the responsibility of the Mackenzie King-Liberal Government, with the approval of other party leaders. The Prime Minister has declared that war effort is to be on a voluntary basis, a declaration which is perhaps satisfactory on our entry into the war but which will not long continue to be so. A measure of conscription as we understand they have it in Britain, is bound to come, and will not only be much fairer to all concerned but will ensure an equality of effort in all parts of the Dominion. War participation is a national duty from which none should escape and which should bear as heavily on capital as on manpower. Every effort must be exerted in this war.

For our protection, there should be an immediate internment of all enemy aliens and they should be put to work from the time of their identification and incarceration. The necessary guardianship of industry and national projects should be vested solely in the Dominion Government with reimbursement of the government by industry for services rendered.

While the activities of alien peoples should be strictly supervised, new Canadians, unless their actions and speech are the subject of unfavorable report, should be accepted as loyal citizens. Many of them left enemy lands to escape participation in just what has occurred. They left behind loved ones, many because they were unable to get away. New Canadians at this time, are acutely conscious of the suspicion under which they labor. As a people we should accept their loyalty at the same time demanding and inflicting heavy penalties for any abuse of our hospitality.

It is difficult at this time, to define Canada's part in this war. We must back up Britain in every way and with every means at our command. Our young men must be prepared for service of any sort, at any time. Our elders must be ready to make any sacrifices which will assist in the overthrow of the German threat. We must render loyal obedience to our national leaders and set ourselves to the furtherance of known objectives.

The issues for which we fight are as dear as life itself. They are Christian civilization, the right to the pursuit of life, liberty, and happiness in the form chosen by the individual. A German triumph means the subjugation of individual freedom to a regimented existence with an exaltation of barbarism by a brutalized and non-Christian minority. It is the negation of progress. It imposes as a duty the reproduction of the human race for the purpose of providing cannon fodder. It is brutal and altogether terrible. It cannot be defeated.

RADIO SHOULD BE A NATIONAL SERVICE

IN THIS war in which Canada is embarking a new servant is playing an increasingly important role. Radio bulletins quickly spread the news. Hour by hour, from the heart of Empire, news is transmitted by the B.B.C. and the Canadian Broadcasting Corporation to homes and offices in Canada. Rich or poor, the license fee is the same to all, and in this connection, CKOV is giving Okanagan Valley people unceasing service, a service which is especially valuable in the day-time when many traveling sets will not bring in more distant stations.

So great is the pressure of news and so hungry are the people to receive it that there is no time or thought for the advertising programs which make this station possible. This puts the station in a serious plight and calls attention to the view, often voiced in these columns that the radio stations should receive full pay for the services they render, direct from the Dominion treasury. In times of crisis they are powerless to earn advertising revenue. In times of peace, commercial announcements are an annoyance not worth the few extra pennies it would cost if all the stations were government owned, controlled, paid for and operated in the national interest, the funds being provided wholly from the license fee.

This is the system in Great Britain and it should be followed in Canada.

The Answer To Encirclement

By WINSTON CHURCHILL, in *Parliament*, April 12, 1939

A VIGILANT attention is being made by France, Germany and the Nazi propaganda to persuade the German people that England is trying to encircle them.

Many countries on the Continent are surrounded by Germany. They have neighbors around them, on every side, on three sides, and it is very difficult to see what can be done about it. France is surrounded by Italy, Switzerland, Belgium and the Netherlands. Poland is surrounded by Germany, Russia, and the Baltic States. Sweden is surrounded by Germany, Denmark, and the Baltic States. Switzerland is surrounded by Germany, France, and Italy. The Soviet Union is surrounded by Germany, Poland, and the Baltic States. The United Kingdom is surrounded by Germany, France, and the Atlantic Ocean.

It is not possible for countries in a Continent to avoid having neighbors, unless they become an island. But, if a country is surrounded by neighbors, it is not possible for it to be neutral. It is not possible for it to be friendly to one side and hostile to the other. It is not possible for it to be friendly to all sides. It is not possible for it to be friendly to no side. It is not possible for it to be friendly to some sides and hostile to others. It is not possible for it to be friendly to all sides and hostile to no sides. It is not possible for it to be friendly to some sides and neutral to others. It is not possible for it to be friendly to all sides and neutral to no sides. It is not possible for it to be friendly to some sides and hostile to some sides and neutral to others. It is not possible for it to be friendly to all sides and hostile to some sides and neutral to others. It is not possible for it to be friendly to some sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to all sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to some sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to all sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to some sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to all sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to some sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to all sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to some sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to all sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to some sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to all sides and hostile to some sides and neutral to some sides and hostile to others. It is not possible for it to be friendly to some sides and hostile to some sides and neutral to some sides and hostile to others. The War Memorial At Lavington Was Unveiled Exactly 20 Years Ago

LAVINGTON, B.C., Sept. 2.—Many older residents of the district will be recalling a touching incident this month, of the unveiling of the Lavington War Memorial, in honor of those brave men, who gave the Supreme Sacrifice on the field of battle. The Prince of Wales, now Duke of Windsor, on a tour through the Okanagan Valley, kindly consented to unveil the Memorial which had just been completed, exactly 20 years ago this month, in September, 1919.

On that day, an interested group waited for the arrival of His Highness and party accompanied by the Mayor and Councilors of the Municipality of Coldstream.

Colonel G. Osborn presented John Smith, familiarly known as "Booby," whose three sons went overseas and paid the supreme sacrifice, and many others who shook hands with the Prince of Wales. This concluded a brief but impressive little ceremony which is still vividly remembered by the few remaining in the district, since that time.

The Memorial has recently been renovated, the names painted in black lettering on white stone, and gravel put down, so that passing motorists may pause to read the inscriptions.

Colonel Osborn, though his age precluded him from active service at the front, volunteered and went over to England on "hook out" duty, and was awarded the Victoria Cross, and was awarded to return safely back again. He passed to his rest, however, some years ago, but his memory still remains, as one who was loved by all who knew him, and his loyalty and devotion will be an example, followed by those who may be called, if necessary, in time of need.

At the top the inscription of names, reads: Major Norman Moncreiff, 2nd G.M.I.,
He was badly wounded in the

FAIRBRIDGE SPORTS ARE GREAT SUCCESS

Program Forms Welcome
Break In Orchard
Work At School

The sports day held recently at Fairbridge for the part of Fairbridge boys who are spending the summer on this beautiful estate was a huge success and a welcome break in the orchard work which is the main purpose of their stay.

Under the watchful eye of the former owner, Capt. J. C. DunWaters, the lawn surrounding the house underwent a complete transformation during the previous week. Flights of hurdles made from poplar poles sprung up overnight, boards were strung on stout cross-bars, nets were pegged tightly to the turf and red flags blossomed at starting and finishing posts. The stage setting was complete when two tables appeared underneath the gigantic bull pine which dominates the centre of the lawn, the one loaded with prizes, the other with hot dogs and ginger pop and cake. Introduce into this picture twenty-three sunburnt excited little boys and three equally excited girls, set it down beside the waters of Okanagan Lake and one has a truly stirring scene.

Capt. DunWaters, an old President of the Cambridge Athletic Union and a holder of at least one track record, acted as starter; the children did the rest. Spectators agreed that the prowess and spirit shown throughout the games by the boys was most inspiring and the outstanding factor that made the day's sport a huge success.

The program was not without its funny side. The races included not only the usual track events such as hurdles, hundred yards relays, etc., but a horse and jockey race which would have rivalled the Derby, and a feeding race which ended in miniature explosions as boys with their mouths stuffed full of cracker biscuits tried to whistle the first bar of "Pop Goes the Weasel."

The two outstanding events of the day, however, were the hill race and the obstacle race, the latter involving a stiff quarter-mile climb up a steep gravelly slope and back to the starting point, the latter a series of ropes, boards, nets and hurdles, ending in a 50-yard swim in the lake.

It is significant that both were won by the same boy and he by no means the oldest of the competitors. It is also interesting to note that this boy's birthplace was in Cumberland, not 30 miles from the historic Grassmere, the venue of the most famous hill races in Great Britain.

The day came to an end with prize-giving and tea served by Mrs. J. C. DunWaters, Mrs. Hance, also of Fairbridge and Mrs. Hance, also of Fairbridge. It was a pretty scene underneath the big pine as each child came up to receive his or her prize from the hands of Mrs. DunWaters, and the fitting climax came with three ringing cheers and a "Tiger" for the Laird of Fairbridge, whose generosity had made such a day possible.

Among visitors were the Hon. Grote Stirling, M.P., and Mr. and Mrs. G. Whitehead, of Vernon.

CODLING MOTH SPRAY AT WESTBANK PROVES EFFICIENT IN 1939

Menace Described As Less Than For Many Years Past

WESTBANK, B.C., Sept. 4.—The packing house here have practically finished the early packing of pears and earlier varieties of apples, and are waiting the start of the Mac season.

The codling moth menace is less in many years, and it is thought that the season is too late now for any great damage. Thorough spraying at just the right season must have been particularly effective this year, as it is reported that where old abandoned orchard trees have been seen lately, no apples on them are ridged with worm-holes.

Mrs. P. Johnson and her son, Arthur, returned by car from Vancouver on Thursday, August 31, where they were called during the previous week to the bedside of Fred Johnson, who, following an operation, was critically ill. When Mrs. Johnson and her son left the Coast city, Mr. Johnson was slightly better, and since that time word has been received that slow but steady progress is being made. Mr. Johnson's daughter, Mrs. E. J. Howell, remained in Vancouver, to be with her father for some time longer.

The Rev. and Mrs. Frank Browne, accompanied by their youngest son, Peter, arrived from their home in New Denver recently, and have been the guests of Mrs. J. Drought, of Trepurrier. Former Westbank residents, the Brownes, are renewing many old acquaintances during their stay in the district.

The Misses Grace Howlett and Lola Braham left on Friday, September 1, for Victoria, where they are attending a Sunday School convention. They plan to spend a day or so in Vancouver on route home.

A party of Westbank and Trepurrier people spent several days of last week at Jack Fish Lake, where they enjoyed the fishing, camping out while there. The party included Miss Morsch and her brother Pat, of Trepurrier, Agnes Davidson and her father, A. H. Davidson, Hilary Garro, Leonard, and Bill Grant, all of Westbank.

Mrs. B. A. Pritchard returned home on Friday, September 1, from Pentelton, where she spent a few days with Mr. and Mrs. H. Moffat. Mr. and Mrs. Moffat made their home in Westbank until a couple of years ago, when they moved, first to Kelowna and then to Pentelton. It is reported that both have volunteered for overseas service, if the need arises. Mrs. Moffat was, before her marriage, the Westbank Supervisor for the Victorian Order of Nurses.

Mr. and Mrs. E. Pritchard, of Edmonton, who have been the guests of Mr. and Mrs. A. C. Hoskins during the past week or two, will remain in Westbank for the fall and winter months, and have sent their three daughters to arrive from Edmonton this week, to join their parents here.

Salvation Army's New General

Commissioner George Carpenter, new territorial commander for Canada, has been elected commander of the Salvation Army by the grand council meeting in secret session in London, England. He will succeed General Evangeline Booth who retires this October. General Carpenter was born in Australia but has been many years in Canada.

Silver Shield Is Won By City Marksmen

"Last Shoot Until Peace Comes Again" Is Held At Summerland

KELOWNA, B.C., Sept. 5.—The last rifle meet likely to be held for the duration of the war took place at the Summerland range on Sunday, when "C" Squadron, 1st B.C. Dragons, Rifle Association held their annual shoot. Had the declaration of war come a day sooner instead of a few hours before the time set for the event, the shoot probably would have been cancelled. Thirty competitors attended, including two ladies. Owing to a number of militiamen having been mobilized already for guard duties, the representation of points outside of Summerland was curtailed materially. Kamloops was unable to send a team, Vernon had five representatives, Kelowna eight and Armstrong three.

Team competition centred on a handsome silver shield, provided by "C" Squadron, 1st B.C. Dragons, R.A. to replace the Summerland Shield, which had been handed over to the B.C. Inland Rifle Association as legitimate successor of the pre-war Okanagan Rifle Association.

At 200 yards, Summerland-Pentelton No. 1 and Vernon tied for first place with 152 points each, then followed Kelowna and Summerland-Pentelton No. 3 with 149 points each, Summerland-Pentelton No. 2, 145, and a composite team consisting of three Kelowna competitors and two from Armstrong, 124.

At 500 yards, Kelowna made a fine showing, running up a total of 164 points. Next came Vernon, 162; Summerland-Pentelton No. 1, 158; Summerland-Pentelton Nos. 2 and 3, 156 each, and Kelowna-Armstrong, 122.

The match had now reached an intensely interesting stage. With the final distance of 600 yards to fire, the score stood: Vernon, 314; Kelowna, 318; Summerland-Pentelton No. 1, 318; Summerland-Pentelton No. 3, 308; Summerland-Pentelton No. 2, 301; Kelowna-Armstrong, 246. The last team was the only one that definitely had no chance to win.

At 600 yards, the occasion and, scoring consistently at the target, the most difficult distance, ran up 163, which gave them a grand total of 497 and possession of the trophy by a margin of six points over Kelowna, who scored 149 and a grand total of 461. Next in order came Summerland-Pentelton No. 1 with 146, grand total 456; Summerland-Pentelton No. 2, who took second place at 600 yards with 149, grand total 450; Summerland-Pentelton No. 3, 136, grand total 440; Kelowna-Armstrong, 137, grand total 393.

The cup for individual aggregate was won by W. W. Ryan, Vernon, with 34, 33, 32—99. Three riflemen tied for second prize: W. L. Gartrell, Summerland, 32, 32, 32—96; C. O. Rose, Kelowna, 31, 33, 32—96; and C. Hawes, Kelowna, 32, 34, 30—96. The shoot-off was won by Hawes with 23 for five shots as against 21 each for Gartrell and Rose.

Ryan won the cup for first place at 200 yards with 34, Hawes taking second prize with 32.

C. N. Kennedy, Kelowna, made a possible at 600 yards, which earned him a silver spoon as well as the cup for high score. Second prize was taken by H. Page Brown, Armstrong, with 34.

At 600 yards, the firing resulted in no less than six competitors tying for first place with 32 each. Possession was involved of a local cup and of the Orchard City Rose Cup, presented last year by "B" Squadron, 1st B.C. Dragons, R.A., Kelowna. In the resulting shoot-off, Gartrell took first place and both trophies with 23 and Rose second prize with 21. Other scores were: Ryan, 19; W. B. Adams, Pentelton, 18; H. Dunand, Summerland, 17; W. E. Harmeling, Kelowna, 17.

600 yards were held at all three distances, first five scoring shots to count, with the following results: 200 yards: 1, 32, W. W. Ryan, Vernon; 2, 31, W. H. Hall, Vernon; 3, 31, A. C. Thompson, Vernon; 4, 30, G. N. Kennedy, Kelowna; 5, 29, G. N. Kennedy, Kelowna; 6, 28, G. N. Kennedy, Kelowna; 7, 27, G. N. Kennedy, Kelowna; 8, 26, G. N. Kennedy, Kelowna; 9, 25, G. N. Kennedy, Kelowna; 10, 24, G. N. Kennedy, Kelowna; 11, 23, G. N. Kennedy, Kelowna; 12, 22, G. N. Kennedy, Kelowna; 13, 21, G. N. Kennedy, Kelowna; 14, 20, G. N. Kennedy, Kelowna; 15, 19, G. N. Kennedy, Kelowna; 16, 18, G. N. Kennedy, Kelowna; 17, 17, G. N. Kennedy, Kelowna; 18, 16, G. N. Kennedy, Kelowna; 19, 15, G. N. Kennedy, Kelowna; 20, 14, G. N. Kennedy, Kelowna; 21, 13, G. N. Kennedy, Kelowna; 22, 12, G. N. Kennedy, Kelowna; 23, 11, G. N. Kennedy, Kelowna; 24, 10, G. N. Kennedy, Kelowna; 25, 9, G. N. Kennedy, Kelowna; 26, 8, G. N. Kennedy, Kelowna; 27, 7, G. N. Kennedy, Kelowna; 28, 6, G. N. Kennedy, Kelowna; 29, 5, G. N. Kennedy, Kelowna; 30, 4, G. N. Kennedy, Kelowna; 31, 3, G. N. Kennedy, Kelowna; 32, 2, G. N. Kennedy, Kelowna; 33, 1, G. N. Kennedy, Kelowna; 34, 0, G. N. Kennedy, Kelowna; 35, 0, G. N. Kennedy, Kelowna; 36, 0, G. N. Kennedy, Kelowna; 37, 0, G. N. Kennedy, Kelowna; 38, 0, G. N. Kennedy, Kelowna; 39, 0, G. N.
